## EXPERIENCE

### HCL GUVI, Chennai.

Associate - MERN Tech support – JUL 2025 - Present

Skill development Engineer – JUL 2024 - JUL 2025

Tech Support Intern – JAN 2024 - JUL 2024

Built internal MERN-based applications and AI-powered automation tools for learner evaluation and workflow optimization. Developed AI resume/portfolio evaluation system with Gemini AI, reducing manual review effort by 90%. Mentored 600+ learners in React, Node.js, MongoDB, Redux, and full-stack architecture. Designed and delivered training sessions on scalable system design and production-grade MERN applications

## PROJECTS

**SQLKATA POC (Internal)** - Built a proof-of-concept MERN-based SQL assessment platform with real-time query execution, automated test validation, and admin dashboard. POC was adopted by the dev team as the foundation for the production product. Tech: React.js, Node.js, Express.js, MongoDB, REST APIs

**AI Portfolio / Resume Evaluator (Internal)** - Automated the learner evaluation process by building an AI-powered platform with MERN stack that analyzes resumes and portfolio websites, generates scores and structured feedback, and delivers results via email, reducing manual review effort by 95%. Tech: React.js, Node.js, MongoDB, Gemini AI, Cloudinary, AWS SES, Puppeteer

**InstaShare** - Full-stack Instagram-like social platform with posts, stories, reels, real-time chat, notifications, and subscriptions. Implemented JWT authentication, Socket.io for real-time communication, Razorpay payments and Cloudinary media handling. Tech: React.js, Node.js, Express.js, MongoDB, Socket.io, Razorpay, Cloudinary, JWT, RBAC
